

## Genre Painting

**Instructor: Lois Woolley**

### Supplies:

- Black Charcoal & White Charcoal Pencils (or sharpened Black & White Nu-Pastels)
- Small Greytone sketchpad (Pads are middle value paper, grey or tan. Use grocery store bags if you can't find this)
- Brushes: hoghair bristle filberts ranging in size from 3 to 10, + 1 sable round "0"
- Masterson covered palette box
- 12"x16" Palette (a glass palette is economical and easiest to cleanup. Masterson makes one to fit their covered box.)
- Shop towels
- Palette knife with 2 to 3 inch blade and an offset handle
- Stretched Canvas in a size ranging from 16"x20" to 20"x24"
- Medium for Tonal Underpainting: Mix 1 part Linseed oil with 4 parts of Eco House xtra mild citrus thinner\*
- Oleogel (available online at [naturalpigments.com](http://naturalpigments.com), [catskillart.com](http://catskillart.com) or [sohoartmaterials.com](http://sohoartmaterials.com))
- Oil Paint

If using acrylics, use water to thin and matte medium or retarder to slow drying.

If using pastels, use a large set of colors (not just a portrait set) and medium-value pastel paper,

**PAINT PIGMENTS:** Ideally, have a tube for each of the twelve colors on a color wheel, raw umber, ivory black and a BIG tube of white. Here is a list of common pigments for each of the twelve colors. You can choose the "hue" of an expensive color such as the cadmiums for economy. The earth colors aren't necessary but are very useful.
